Australia's first **art** hotel...

Sydney's The Storrier - Australia's first Art hotel...

Sydney's hottest new boutique hotel, The Storrier, has released their first exciting package to the marketplace, the Winter Indulgence @ The Storrier.

The package is the brainchild of dynamic new General Manager Nicole Xanthos and is in keeping with the decadent and artistic vibe of Sydney's most sought after boutique hotel.

Winter Indulgence @ The Storrier is the perfect weekend getaway for those who love to indulge. The package includes accommodation in a Superior Studio, complimentary regional cheese and wine tasting for two in Red Belly Restaurant & Bar with Executive Chef Coop Woodstone, a true connoisseur of cheese. On departure, guests will receive a cheese board, complimentary from The Storrier.

Starved of boutique hotels, Sydney has welcomed The Storrier to the entertainment precinct, Potts Point. This is the first in a series of seven 'art' hotels planned to open around Australia over the next 12 months. The Storrier, encompassing 70 suites and a 50 seat restaurant

and bar, Red Belly, is named after iconic Australian artist Tim Storrier.

Design aspects reflect Storrier's enigmatic style, whilst original oils, prints and photography of Storrier throughout his career adorn the walls of the hotel.
